3

Real Estate Investment Activity

In March 2013, the Company, with a joint venture partner, acquired two vacant residential buildings in Williamsburg, Brooklyn for \$54.9 million. The properties, which are above a retail condominium already owned by the Company, consist of 72 newly constructed apartment units and 12 townhouses. Simultaneously, the joint venture closed on a \$22.0 million, 5-year first mortgage loan which bears interest at 225 basis points over the 30-day LIBOR.

Debt and Preferred Equity Investment Activity

The Company's debt and preferred equity investment portfolio totaled \$1.4 billion at March 31, 2013. During the first quarter, the Company purchased and originated new debt and preferred equity investments totaling \$198.9 million, inclusive of 550 Madison Avenue, all of which are collateralized by New York City commercial office properties, and recorded \$121.4 million of principal reductions from investments that were sold or repaid. The debt and preferred equity investment portfolio had a weighted average maturity of 1.9 years as of March 31, 2013 and had a weighted average yield during the quarter ended March 31, 2013 of 10.6 percent.

During the first quarter the Company sold a 50 percent interest in a mezzanine loan secured by interests in 5 Times Square, Manhattan, generating \$57.8 million of proceeds to the Company, inclusive of \$12.9 million of additional income recorded in the first quarter.

Financing and Capital Activity

In February 2013, the Company closed on a \$900 million first mortgage refinancing of 1515 Broadway. The new 12-year, 3.93 percent fixed rate mortgage financing replaced the former \$775 million mortgage loan. The refinancing follows the April 2012 renewal by Viacom of 1.6 million square feet at the office tower through 2031. In conjunction with the refinancing, the Company paid a prepayment penalty of \$7.6 million, or \$0.08 per diluted share, to the providers of the previous mortgage loan and recorded a non-recurring charge of \$10.9 million, or \$0.12 per diluted share, for unamortized deferred financing costs associated with the previous mortgage loan.

Dividends

During the first quarter of 2013, the Company declared quarterly dividends on its outstanding common and preferred stock as follows:

- \$0.33 per share of common stock, which was paid on April 15, 2013 to stockholders of record on the close of business on April 1, 2013;
- \$0.4766 per share on the Company's Series C Preferred Stock for the period January 15, 2013 through and including April 14, 2013, which was paid on April 15, 2013 to stockholders of record on the close of business on April 1, 2013, and reflects the regular quarterly dividend which is the equivalent of annualized dividend of \$1.9064 per share; and

4

Non-GAAP Supplemental Financial Measures

Funds from Operations (FFO)

FFO is a widely recognized measure of REIT performance. The Company computes FFO in accordance with standards established by the National Association of Real Estate Investment Trusts, or NAREIT, which may not be comparable to FFO reported by other REITs that do not compute FFO in accordance with the NAREIT definition, or that interpret the NAREIT definition differently than the Company does. The revised White Paper on FFO approved by the Board of Governors of NAREIT in April 2002, and subsequently amended, defines FFO as net income (loss) (computed in accordance with GAAP), excluding gains (or losses) from debt restructuring, sales of properties and real estate related impairment charges, plus real estate related depreciation and amortization and after adjustments for unconsolidated partnerships and joint ventures. The Company presents FFO because it considers it an important supplemental measure of its operating performance and believe that it is frequently used by securities analysts, investors and other interested parties in the evaluation of REITs, particularly those that own and operate commercial office properties. The Company also uses FFO as one of several criteria to determine performance-based bonuses for members of its senior management. FFO is intended to exclude GAAP historical cost depreciation and amortization of real estate and related assets, which assumes that the value of real estate assets diminishes ratably over time. Historically, however, real estate values have risen or fallen with market conditions. Because FFO excludes depreciation and amortization unique to real estate, gains and losses from property dispositions and extraordinary items, it provides a performance measure that, when compared year over year, reflects the impact to operations from trends in occupancy rates, rental rates, operating costs, interest costs, providing perspective not immediately apparent from net income. FFO does not represent cash generated from operating activities in accordance with GAAP and should not be considered as an alternative to net income (determined in accordance with GAAP), as an indication of the Company's financial performance or to cash flow from operating activities (determined in accordance with GAAP) as a measure of the Company's liquidity, nor is it indicative of funds available to fund the Company's cash needs, including its ability to make cash distributions.

5

Same-Store Net Operating Income, Same-Store Cash Net Operating Income and Related Measures

The Company presents same-store net operating income, same-store cash net operating income, same-store joint venture net operating income, same-store joint venture cash net operating income because the Company believes that these measures provide investors with useful information regarding the operating performance of properties that are comparable for the periods presented. For properties owned since January 1, 2012 and still owned in the same manner at the end of the current quarter, the Company determines same-store net operating income by subtracting same-store property operating expenses and ground rent from same-store recurring rental and tenant reimbursement revenues. Same-store cash net operating income is derived by deducting same-store straight line and free rent from, and adding same-store tenant credit loss allowance to, same-store net operating income. Same-store joint venture net operating income and same-store joint venture cash net operating income are calculated in the same manner as noted above, but includes just the Company's pro-rata share of the joint venture net operating income. None of these measures is an alternative to net income (determined in accordance with GAAP) and same-store performance should not be considered an alternative to GAAP net income performance.
