In July, the Company entered into an agreement to sell the leased fee interest in 2 Herald Square for \$365.0 million. The sale of the leased fee interest, which is improved with an existing 11-story 365,000 square foot commercial office building, is expected to close during the fourth quarter of 2014, subject to the satisfaction of customary closing conditions.

In July, the Company, together with its partner, reached an agreement to sell all their interests, including their fee position and retail condominium unit, in the mixed-use college dormitory/retail asset at 180 Broadway for a gross sales price of \$222.5 million. This transaction is expected to close during the third quarter of 2014, subject to the satisfaction of customary closing conditions.

Today, the Company closed on the sale of its development properties at 985-987 Third Avenue for \$68.7 million. The sale is being made in conjunction with the pending sale of the adjacent parcel, which the Company does not own. The total amount paid for the combined development site, plus development rights, was \$100.0 million.

In May, the Company closed on the sale of its leasehold interest in 673 First Avenue for \$145.0 million, reflecting a capitalization rate based on in-place net operating income of 4.7 percent, and recognized a gain on sale of \$117.8 million.

In May, the Company closed on the sale of its joint venture interest in a 10,000 square foot property located at 747 Madison Avenue for a gross sales price of \$160.0 million, recognizing a promote of \$10.3 million and a deferred gain on sale of \$13.1 million.

In July, the Company, together with its joint venture partner, closed on the acquisition of 719 Seventh Avenue for \$41.1 million. The Company intends to demolish the building in due course in order to take full advantage of the development rights.

In July, the Company closed on the acquisition of a 5,218 square foot prime retail condominium at 115 Spring Street, located along one of SoHo's most popular shopping corridors, for \$52.0 million, expanding the Company's SoHo presence, which includes retail assets at 131-137 Spring Street, a participating preferred investment at 530-536 Broadway and a contract to purchase the retail condominium at 121 Greene Street.

---

In April, the Company and its joint venture partner closed on a \$275.0 million refinancing of 724 Fifth Avenue, resulting in proceeds in excess of our original basis in the building. ### **Non-GAAP Supplemental Financial Measures**

#### ***Funds from Operations (FFO)***

FFO is a widely recognized measure of REIT performance. The Company computes FFO in accordance with standards established by the National Association of Real Estate Investment Trusts, or NAREIT, which may not be comparable to FFO reported by other REITs that do not compute FFO in accordance with the NAREIT definition, or that interpret the NAREIT definition differently than the Company does. The revised White Paper on FFO approved by the Board of Governors of NAREIT in April 2002, and subsequently amended, defines FFO as net income (loss) (computed in accordance with GAAP), excluding gains (or losses) from debt restructuring, sales of properties and real estate related impairment charges, plus real estate related depreciation and amortization and after adjustments for unconsolidated partnerships and joint ventures. The Company presents FFO because it considers it an important supplemental measure of the Company's operating performance and believes that it is frequently used by securities analysts, investors and other interested parties in the evaluation of REITs, particularly those that own and operate commercial office properties. The Company also uses FFO as one of several criteria to determine performance-based bonuses for members of its senior management. FFO is intended to exclude GAAP historical cost depreciation and amortization of real estate and related assets, which assumes that the value of real estate assets diminishes ratably over time. Historically, however, real estate values have risen or fallen with market conditions. Because FFO excludes depreciation and amortization unique to real estate, gains and losses from property dispositions and extraordinary items, it provides a performance measure that, when compared year over year, reflects the impact to operations from trends in occupancy rates, rental rates, operating costs, interest costs, providing perspective not immediately apparent from net income. FFO does not represent cash generated from operating activities in accordance with GAAP and should not be considered as an alternative to net income (determined in accordance with GAAP), as an indication of the Company's financial performance or to cash flow from operating activities (determined in accordance with GAAP) as a measure of the Company's liquidity, nor is it indicative of funds available to fund the Company's cash needs, including our ability to make cash distributions.

#### ***Funds Available for Distribution (FAD)***

FAD is a non-GAAP financial measure that is not intended to represent cash flow for the period and is not indicative of cash flow provided by operating activities as determined in accordance with GAAP. FAD is presented solely as a supplemental disclosure with respect to liquidity because the Company believes it provides useful information regarding the Company's ability to fund its dividends. Because all companies do not calculate FAD the same way, the presentation of FAD may not be comparable to similarly titled measures of other companies. FAD does not represent cash flow from operating, investing and finance activities in accordance with GAAP and should not be considered as an alternative to net income (determined in accordance with GAAP), as an indication of the

5

---

Company's financial performance, as an alternative to net cash flows from operating activities (determined in accordance with GAAP), or as a measure of the Company's liquidity.

### Same-Store Net Operating Income, Same-Store Cash Net Operating Income and Related Measures

The Company presents same-store net operating income, same-store cash net operating income, same-store joint venture net operating income, and same-store joint venture cash net operating income because the Company believes that these measures provide investors with useful information regarding the operating performance of properties that are comparable for the periods presented. For properties owned since January 1, 2013 and still owned in the same manner at the end of the current quarter, the Company determines same-store net operating income by subtracting same-store property operating expenses and ground rent from same-store recurring rental and tenant reimbursement revenues. Same-store cash net operating income is derived by deducting same-store straight line and free rent from, and adding same-store tenant credit loss allowance to, same-store net operating income. Same-store joint venture net operating income and same-store joint venture cash net operating income are calculated in the same manner as noted above, but includes just the Company's pro-rata share of the joint venture net operating income. None of these measures is an alternative to net income (determined in accordance with GAAP) and same-store performance should not be considered an alternative to GAAP net income performance.
