PART I – REPORTING ISSUER

Line 10. CUSIP Number: Original CUSIP was 78440X804 and post-split CUSIP is 78440X887.

PART II – ORGANIZATIONAL ACTION

Line 16. Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates.

See line 15. Shareholders with blocks of pre-reverse split common stock not divisible by 1.03060 which reflect pre-reverse split common stock acquired at different times or different prices must replicate such blocks of pre-reverse split common stock in the post-split common stock received pursuant to a formula provided in the Treasury Regulations that seeks to preserve, to the greatest extent possible, the basis of a particular block of pre-reverse split common stock in one or more post-split common stock shares received in exchange therefor. This may require the aggregate basis in one block of pre-reverse split common stock to be allocated to post-split common stock in a manner where some post-split common stock may have split basis and holding periods. Because no fractional shares were issued, the aggregate tax basis of SL Green Realty Corp. common stock held by a shareholder immediately after the reverse stock split could be less than pre-reverse split aggregate tax basis by an amount equal to the aggregate tax basis allocated to the fractional shares, if any.

Line 18. Can any resulting loss be recognized?

The reverse stock split is intended to be treated as a recapitalization for U.S. Federal Income Tax purposes under Section 368(a)(1)(E). Therefore, except as described below with respect to cash received in lieu of a fractional share, a shareholder will not recognize any gain or loss for federal income tax purposes as a result of the reverse stock split.

In general, a shareholder who receives a cash payment in lieu of a fractional share will recognize capital gain or loss equal to the difference between the amount of cash received in lieu of the fractional share and the portion of the shareholder's tax basis of the pre-reverse stock split shares that is allocable to the fractional share. Such gain or loss generally will be long-term capital gain or loss if the holding period in its pre-reverse stock split shares is more than one year as of the reverse stock split date. The deductibility of net capital losses by individuals and corporations is subject to limitations set forth in the Internal Revenue Code.
